## GOODBYE WINTER BLUES – THE CARIBBEAN AWAITS

As the sun moves further and further away from Europe, the eagles on the bows of our two windjammers, the SEA CLOUD and SEA CLOUD II, are transformed into majestic birds of passage. They are bound for the Caribbean and Central America, following the course already travelled by generations of discoverers and adventurers. The trade winds take over, giving orders and leading manoeuvres. Work on board a tall ship has hardly changed over the last 500 years. The stresses and strains of everyday life disappear in an instant once the crew scales the masts to hoist the sails by hand in a fascinating spectacle.

The casual, informal atmosphere on board our ships is all the more enjoyable under the Caribbean sun. Our crew of around 60 are there to ensure that all of our guests on board (a maximum of 94 travellers from all over the world) enjoy a unique cruise experience that is tailored to their needs. Many of our crew have been working together for

years, forming an established team which meets guests' needs with a smile and spoils them with culinary delights.

Our elegant, exclusive tall ships combine an exciting sailing adventure with a relaxing cruise and the atmosphere of a private yacht. Every holiday with SEA CLOUD CRUISES is more than just a cruise – it is a truly personal experience.

## CARIBBEAN AND CUBA

The Lesser Antilles run through the turquoise Caribbean Sea like a shimmering string of pearls. The waters between the British Virgin Islands in the north and the Grenadines in the south provide the perfect sailing conditions for windjammers as well as intriguing insights into a highly diverse range of cultures and lifestyles. Want to go on an excursion through tropical green forest to the volcanic sulphur springs? Why not enjoy an exquisite sundowner while watching elegant luxury yachts or perhaps go bare-footed into the beach bar? Fortunately there is no need to choose any particular highlight because every day will surprise you with a new and enjoyable feature.

Cuba really is the heart of the Caribbean. Cut off from the capitalist West, this is a country which has kept itself free of American fast food chains and flamboyant advertising

and which always knows how to make a virtue out of necessity. Life here is all about being resourceful: In Havana's UNESCO-protected old town you will see colourful vintage cars, and people who cannot afford entry into an expensive club simply dance on the Malecón seafront promenade to the lively rhythms of street music.

## CENTRAL AMERICA, PANAMA AND COSTA RICA

Narrow, little houses with gabled roofs, market stalls and small cafés serving “Eierkoek” – if it was not for the radiant rays of sun and the white, palm-fringed beaches, you could easily mistake this area for a Dutch province. That is because the three ABC islands of Aruba, Bonaire and Curaçao playfully engage with their colonial past, and with their blend of European tradition and Caribbean living, they serve up a colourful cocktail that is sure to put a smile on your face.

Nature lovers will encounter a vibrant, tropical paradise brimming with natural wonders in Panama’s and Costa Rica’s unique national parks. In the treetops of the evergreen rainforests, mangrove swamps and warm, crystal-clear waters, an abundance of fascinating animal species await. Follow this intensive natural encounter with a taste of urban life in trendy Panama City located close to the Panama Canal. Now over 100 years old, this construc-

tion is still considered one of the greatest feats in human engineering. The same is also often said of the mystical Maya temple structures found in Mexico and Belize. These mysterious places of worship, with their impressive stepped pyramids and artistic stone relief carvings, have lost none of their magical appeal over the past several millennia.

# SEA CLOUD

The “lady” of all windjammers

A self-assured grande dame, a stylish yet informal sailing icon and a generous host – the SEA CLOUD is a living legend. In 1931 the American millionaire couple Marjorie Merriweather Post and Edward Hutton commissioned the four-masted barque and set about transforming the luxury private yacht into a stage for their eccentric lifestyle. With carefully restored original cabins, golden taps and magnificent marble fireplaces, the SEA CLOUD exudes a timeless elegance, combining extravagance with a friendly charm and the thrill of an authentic windjammer experience.

## 16 days on a wind-set course – the Atlantic crossing: Las Palmas – Barbados

### Pure sailing adventure

For two whole weeks, the expansive ocean will be the SEA CLOUD's home. Water currents and trade winds are all that propel the SEA CLOUD forwards. Our well-drilled crew work seamlessly together as the white sails billow majestically in the breeze. On a Transatlantic cruise you will certainly experience one of the most authentic sailing adventures. And as we make our way to the New World, the worries of everyday life will vanish as fast as the eastern shore.

### Follow the course of Columbus

More than 500 years after Columbus, it is not just wind-jammer enthusiasts who will be awestruck by this re-enactment of his famous voyage. As the SEA CLOUD follows the legendary shipping route from the Canaries to the West Indies, it brings the magic of those great adventures to life. All the voyagers on board will be left with unforgettable memories.

### Discover a haven of tranquillity

As you cruise across the Atlantic, you will for once be able to read your favourite book without distraction or allow your thoughts to roam as you gaze out over the horizon. The attentive crew will intuitively meet your every need and the relaxed atmosphere is the perfect catalyst for a pleasant conversation.

### A lecturer accompanies the trip

The practice of gathering around a storyteller has provided entertainment for groups of voyagers throughout history. Our lecturer has likewise prepared some exciting talks for our windjammer enthusiasts during their Transatlantic cruise.

Where wildly colourful underwater worlds, rousing Caribbean rhythms and enticing fragrances captivate the senses: Barbados – Barbados

**Tobago: an island paradise**

The small fishing village of Charlotteville is situated in Tobago's idyllic Man-O-War Bay and can only be reached by land via a steep road which cuts through the rainforest. With the ship anchored in the town's picturesque bay, you will have plenty of time to discover the island or to plunge into the emerald-green waters.

**A delight for all the senses: Grenada, the island of spice**

There is a reason why nutmeg is immortalised on this country's national flag. Since colonial times nutmeg – along with cloves, cinnamon and ginger – has been one of the island's most important exports. If the aromatic fragrance of the tropics were to have a name, it would have to be "Grenada".

**Snorkellers' paradise in the Tobago Cays**

A unique feature of the Tobago Cays is their unspoilt coral reef, known as the "Horseshoe Reef" due to its shape. It keeps the Atlantic swells at bay and is the perfect place for snorkelling. Once back on dry land, you will be treated to a beach barbecue with culinary specialities.

**Experience the Caribbean joie de vivre with string and steel bands**

Be it salsa, merengue, soca, calypso or steel pan rhythms, all of these very different music styles have one thing in common – they all capture the heart and soul of the Caribbean. This music is sure to put a smile on your face and get everyone tapping their feet.

## Wonderful jungles and elegant lifestyle, colourful underwater worlds and aromatic spices.

### Tobago: an island paradise

The small fishing village of Charlotteville is situated in Tobago's idyllic Man-O-War Bay and can only be reached by land via a steep road which cuts through the rainforest. With the yacht anchored in the town's picturesque bay, you will have plenty of time to discover the island or to plunge into the emerald-green waters.

### Grenada – the island of spice

Although Grenada has been blessed with around 45 picture-perfect beaches, the country's real treasure remains its lush, green island interior. Deep volcanic lakes, dense rainforests, waterfalls and small river courses form the primordial backdrop of the island's sugar cane fields and spice plantations. It is the reason why the scent of cloves, cinnamon and nutmeg hangs in the air wherever you go on Grenada.

### Snorkellers' paradise in the Tobago Cays

For many, life under water is a fascinating world – one that becomes even more magical the closer you get. The Tobago Cays' Horseshoe Reef is such a place. This horseshoe-shaped coral reef encloses four small islands that glow in rich shades of green. The sea, in contrast, embraces turquoise, emerald and every shade of blue.

### The natural beauty spots of St Lucia and Dominica

The pitons of St Lucia are world famous and magnificently beautiful. But perhaps even more beautiful is the unique view you have of this stunning natural masterpiece from the SEA CLOUD's anchorage. Dominica is one of the wildest and most primal of the Lesser Antilles. The heart of the island is covered in thick virgin forest, where you will find plunging rivers and small creeks winding their way through the jungle.

### The jet set island of St Barts

Although many like to call it "St Barts" for short, the island's official name is St Barthélemy. Having passed through several different owners, the land was finally bought by France in 1877 and is now firmly in the hands of the jet set. Elegant Gustavia entices with classy goods and glamour hidden away behind restored facades, and the harbour hosts luxury yachts with famous owners.

### "The Baths" – imposing granite formations

It is sometimes easy to think that this is one of nature's fairy tales: Once upon a time, there was a giant who played with large stone marbles. His favourite playground was in Virgin Gorda, a place now called "The Baths" – a gigantic rock labyrinth made out of circular-shaped granite.

### Also on board: Gerrit Aust

Gerrit Aust, historian and author, studied history, Romance philology, archaeology and politics at the University of Hamburg. Since then, he has worked as a lecturer in these fields, held positions in history museums and supervised research projects. For the past twelve years, he has reported on board about our destinations, including their history and people.

Depending upon the circumstances, it is possible that another lecturer will be on board for this trip.

## A romantic tall ship experience in the archipelago of the Lesser Antilles and the Grenadines: Barbados – Barbados

### Tobago: an island paradise

The small fishing village of Charlotteville is situated in Tobago's idyllic Man-O-War Bay and can only be reached by land via a steep road which cuts through the rainforest. With the ship anchored in the town's picturesque bay, you will have plenty of time to discover the island or to plunge into the emerald-green waters.

### Stunning islands: St Lucia and Dominica

Although St Lucia is not considered a saint by everyone, the island is certainly the true queen of this idyllic realm. Even from a distance, its twin volcanic peaks, the Pitons, proffer a regal greeting to the approaching SEA CLOUD. And once we have docked, the island welcomes us with its lush tropical scenery. Dominica, unofficially dubbed "Nature Island", is proud of its unspoiled landscape. One of its national parks is even a UNESCO World Heritage Site.

### The jet set island of St Barts

When the banker David Rockefeller came to this island in the 1960s, he realised one thing: that this is a great place to live. Since then, the small Antilles island of St Barthélemy has seen increasing numbers of celebrity guests and evolved into a getaway for the rich and famous. Many Hollywood stars love to come here for a holiday retreat and enjoy taking a stroll along the quaint streets of Gustavia.

## Idyllic tropical islands, aromatic spices, colonial flair and the many beautiful facets of Panama.

### Tobago: an island paradise

The small fishing village of Charlotteville is situated in Tobago's idyllic Man-O-War Bay and can only be reached by land via a steep road which cuts through the rainforest. With the ship anchored in the town's picturesque bay, you will have plenty of time to discover the island or to plunge into the emerald-green waters.

### Idyllic sailing along the trade winds

In winter and spring the Caribbean trade winds provide ideal speeds and perfect stability, while delivering extremely pleasant air and water temperatures. The many hours out at sea will turn into a real joy for the tall ship, and a delight for those looking to enjoy freedom beneath the sails. All this in stunning waters.

### A day at the beach on the popular sailors' island of Bequia

The SEA CLOUD drops anchor in Admiralty Bay at Port Elizabeth on Bequia. It is the meeting place for round-the-world sailors and private luxury yachts. Our zodiacs bring you to the town or to one of the island's most beautiful beaches. You will have plenty of time for whatever you choose, be it swimming, snorkelling or taking a stroll.

### A delight for all the senses: Grenada, the island of spice

There is a reason why nutmeg is immortalised on this country's national flag. Since colonial times nutmeg – along with cloves, cinnamon and ginger – has been one of the island's most important exports. If the aromatic fragrance of the tropics were to have a name, it would have to be "Grenada".

### Visit two of the ABC islands: Bonaire and Curaçao

The ABC islands off the coast of Venezuela are considered the "Netherlands of the Caribbean", and their colonial past is still visible in their pastel-coloured architecture. Date palms stand outside the gabled houses and you can order Dutch "Poffertjes" pancakes alongside cactus liqueur in the restaurants. There are plenty of colours on show underwater, too; and their breathtaking biodiversity renders these island beauties a Mecca for water sports fans.

### Panama City and the Panama Canal

When the Panama Canal opened in 1914 after more than 30 years of construction, it allowed ships sailing between New York and Los Angeles to shorten their route by almost 15,000 kilometres (9,320 miles). Panama City has experienced enormous growth ever since. The contrast between its ultra-modern banking centre and lovingly restored historic quarters is what makes the city Central America's style capital.

### A lecturer accompanies the trip

Exciting topics, background information and fascinating facts – our expert offers talks on a whole range of subjects from his specialist field and will be happy to answer your questions throughout the cruise.

## Colourful coral islands, legendary ancient Maya cities and that famous Cuban spirit.

### Several relaxing days at sea

Besides crossing worlds and discovering new lands, we let relaxation take a front seat on our yacht for four whole days. Plenty of time to enjoy life under the white sails and to be spoilt in every way.

### The world's second largest coral reef

The Belize Barrier Reef is a 256-kilometre-long (159 miles) reef system which contains countless small coral islands. The Lighthouse Reef Atoll features a particularly special natural wonder: the Great Blue Hole. This circular submarine sinkhole, with a diameter of over 300 metres (0,19 miles), was created during the last ice age and is a UNESCO World Heritage Site. Donning your snorkel and getting an underwater view is obviously another great way to discover the impressive beauty of the reef.

### Maya cities in Mexico and Belize

The sophisticated culture of the Maya in Central America, which began roughly 5,000 years ago and ended around the time of the Spanish conquest, is still

a mystery. Their ceremonies seem to have been gory, their step pyramids imposing, and their stone carvings required a great deal of skill. On our trip you will discover three mystical Maya strongholds: Tulum, in Mexico, is the only Maya city situated on the coast; Altun Ha and Lamanai are in Belize. Lamanai is situated on the banks of an inland lagoon and remained populated for roughly 3,000 years. Excavations have revealed that over 20,000 people lived there around 700 AD.

### Havana's Tropicana

Discover the place where Nat King Cole, Frank Sinatra and Josephine Baker took to the stage and where Edith Piaf, Ernest Hemingway and Marlon Brando applauded wildly in the audience: the legendary Tropicana in Havana. With its colourful shows, this cabaret nightclub is just as magical, vivacious and thrilling as it was when it opened back in 1939.

### A lecturer accompanies the trip

Knowledge, entertainment and facts – our expert is on hand to give talks on a wide variety of specialist subjects. He will also be on board to answer any questions that you may have.

## Joie de vivre in two-four time against a backdrop of sandy beaches and the lavish villas of sugar barons: Havana – Santo Domingo

### Trinidad's old town

Trinidad de Cuba is a small, friendly place with a long history as a centre for sugar cane farming. Its charming coastal setting, lovingly restored facades and gentle pace of life can be experienced in any of the town's beautiful squares and in the narrow, historic alleyways. This small town has a well-deserved place on the UNESCO World Heritage Site list.

### Cuban beach heaven

On the Isla de la Juventud and in María la Gorda, the highlights are found in, on and under the water – picture-perfect beaches with palm trees offering shade, a warm, gentle sea sparkling in numerous shades of blue, and a coral reef with perfect conditions for snorkelling.

### The spirited music of Cuba

If Cuba is the birthplace of almost every Latin dance style, then Santiago de Cuba is the stage on which they are performed. Nowhere else will you find so much live music or dancing. In the town's clubs, bars and dance schools, the rhythms of salsa, son and rumba are omnipresent and just as thrilling as in the world-famous Buena Vista Social Club. A band will also be performing on board.

Sailing together

## Lush tropical paradises, glamorous haunts of the jet set and a day of sailing alongside the **SEA CLOUD II**: Santo Domingo – Barbados

**The famous seafarer hideouts of Bequia, Jost van Dyke and Virgin Gorda**  
Once, notorious pirates would hide out in the protected bays of these three Antilles islands. Now they are a haven away from the everyday hustle and bustle of life. You will find it easy to give in to the infectious joie de vivre here in the rustic beach clubs, in bars located beneath the palm trees, on beautiful beaches and in some of the most popular yacht clubs.

**The savoir-vivre of the Îles des Saintes**  
This archipelago has been part of France since the 17th century. Overlooked by a historical fort, the charming small town of Terre-de-Haut offers spectacular unbroken views out over the surrounding bays. Its boutiques, bars, restaurants and cafés are perfect for a spot of browsing.

**The jet set island of St Barts**  
St Barthélemy has had several masters: the Spanish, the Swedes, the French and the Knights of Malta. However, it is now firmly in the hands of the jet set, who come here for short breaks to get away from it all. All of the yachts in the harbour are worth looking at, as are the bars and restaurants.

**The magnificent Pitons of St Lucia**  
Gros and Petit Piton, the two famous volcanic plugs that tower over St Lucia, could have come straight out of a tropical storybook. They are a UNESCO World Heritage Site and offer a spectacular panorama as the **SEA CLOUD** sails closely alongside their slopes.

SEA CLOUD

# SEA CLOUD II

Luxury cruise meets sailing experience

Who says you cannot have it all? The tall ship SEA CLOUD II brings together the best of two worlds: This spacious three-masted barque offers all the amenities of a modern cruise ship whilst remaining a quintessential windjammer. With its four expansive decks, a sauna, gym, boutique and swim platform, as well as the generous range of facilities on offer in its guest cabins, the SEA CLOUD II delivers five-star luxury which is sure to impress even seasoned cruise-goers.

**S** Special offer

## Experience a tall ship sailing adventure at first hand while crossing the Atlantic: Las Palmas – Curaçao

### An authentic sailing experience

Crossing the Atlantic on a traditional tall ship is an experience that leaves a lasting impression. For 17 days your exact course is determined only by the elements. When the crew set the sails at dizzying heights, the wind is caught in the sailcloth and the ropes creak as they are stretched tight, you will experience a tangible sense of freedom.

### Following in Columbus' footsteps

What would have been going through Columbus' mind as he set sail in 1492? It is virtually impossible to sail across the Atlantic in the discoverer's footsteps without constantly considering his thoughts and ideas. Columbus had not yet discovered the trade winds which provide ideal sailing conditions in the westerly direction during the winter months, but nowadays we know that they will provide the SEA CLOUD II with idyllic sailing on its way to the Caribbean.

### Relax and enjoy

Great adventures do not always have to mean great effort. For 17 days we sail a westwards course across the Atlantic, always heading towards a magnificent sunset. It is not long before you will start to sit back and relax; surrounded by vast horizons and looked after by an attentive crew, the stress of daily life will be left behind in no time at all.

### Also on board: Tilman Giezendorf

With degrees in law and tourism & business administration, Tilman Giezendorf has been working in the travel industry since 1990. He has visited more than 70 countries, gaining plenty of experience as tour guide and lecturer.

Depending upon the circumstances, it is possible that another lecturer will be on board for this trip.

## Sail with the trade winds to pastel-coloured paradises, to Panama and Costa Rica: Curaçao – San José (Puerto Limón)

### Idyllic sailing along the trade winds

In winter and spring the Caribbean trade winds provide ideal speeds and perfect stability while delivering extremely pleasant air and water temperatures. The many hours out at sea will turn into a real joy for the tall ship, and a delight for those looking to enjoy freedom beneath the sails. All this in stunning waters.

### Visit two of the ABC islands: Aruba and Curaçao

Aruba and Curaçao make up the A and C of the ABC islands and belong to the Kingdom of the Netherlands. Their distinctive features – including Delft tiles, Dutch gable houses, palms and the pastel colours of the Caribbean – make this an enchanting destination. Curaçao boasts a UNESCO World Heritage Site in the shape of its small capital Willemstad.

### Panama City and the Panama Canal

When the Panama Canal opened in 1914 after more than 30 years of construction, it allowed ships sailing between New York and Los Angeles to shorten their route by almost 15,000 kilometres (9,320 miles). Panama City has experienced enormous growth ever since. The contrast between its ultra-modern banking centre and lovingly restored historic quarters is what makes the city Central America's style capital.

### A lecturer accompanies the trip

Knowledge, entertainment and facts – our expert is on hand to give talks on a wide variety of specialist subjects. He will also be on board to answer any questions that you may have.

## Through the Panama Canal to the unique natural treasures of Costa Rica and Panama.

### Panama City and the Panama Canal

It took 30 eventful years for the Panama Canal to be finally completed. In 2014, this huge construction was celebrating its 100th anniversary and the new three-tier lock system will be brought into service in 2016. Traveling through the canal during the day is a very special experience. Panama City is the latest top destination in Central America and also an absolute must-see, with its historical quarters and the ultra-modern centre creating an appealing contrast.

### Costa Rica's and Panama's Pacific coast: perfect sailing waters

The Pacific coast is blessed with an abundance of natural beauty, reliable winds, outstanding anchorages, lush green coasts and radiant sunshine. Columbus named Costa Rica "La Huerta", or "the garden", and the name is just as fitting today as it was back then.

### The Coiba National Park

The Coiba National Park is one of the largest marine national parks in the world and was declared a UNESCO World Heritage Site in 2005. Made up of 38 smaller islands and the larger Coiba Island, the park is home to many indigenous plant and animal species. And as this is also the ideal habitat for marine wildlife, you are more than likely to encounter one of the park's 23 whale and dolphin species.

### The picture-perfect beaches of Costa Rica and Panama

On the tranquil coasts of Costa Rica and Panama, unforgettable natural scenery and beautiful relaxing beaches can be found just a few steps away from one another. Paradisiacal conservation areas blend into charming bays, and shady palms line the beaches as if on a picture postcard. What is more, if you really just want to relax, you will find the perfect place to do so in the soft sand of Coiba, Tortuga and the Islas de las Perlas.

### The Corcovado National Park: one of the most picturesque areas of Costa Rica

Stretching out into the Pacific Ocean, the Osa Peninsula is home to one of Costa Rica's unspoiled rainforests. Gigantic trees reach up to 80 metres (262 feet) into the air, while around 400 different species of bird fill the skies. The forest is also home to a host of other wildlife including tapirs, pumas, jaguars, ocelots and anteaters.

### Granada – a UNESCO World Heritage Site

Situated picturesquely at the foot of a volcano and on the shore of a lake, the Nicaraguan town of Granada never ceases to conjure up stunning views of the natural and the man-made. Founded by the Spanish in 1524, it was one of the most influential towns in Central America for around 200 years. It is still considered an insider tip among the region's colonial pearls. The significance of its historical legacy has earned it a very special seal of approval: a place on the UNESCO World Heritage Site List.

### A lecturer accompanies the trip

The fascinating flora and fauna in Costa Rica's national parks are bound to throw up questions. Therefore, a scientist with a detailed knowledge of the region's various ecosystems will be on hand to answer them. He will give presentations and accompany the shore excursions.

Travelling through the canal during the day is a very special experience. Panama City is the latest top destination in Central America and also an absolute must-see, with its historical quarters and the ultra-modern centre creating an appealing contrast.

### The Corcovado National Park: one of the most picturesque areas of Costa Rica

Stretching out into the Pacific Ocean, the Osa Peninsula is home to one of Costa Rica's unspoiled rainforests. Gigantic trees reach up to 80 metres (262 feet) into the air, while around 400 different species of bird fill the skies. The forest is also home to a host of other wildlife including tapirs, pumas, jaguars, ocelots and anteaters.

### Costa Rica's and Panama's Pacific coast: perfect sailing waters

The Pacific coast is blessed with an abundance of natural beauty, reliable winds, outstanding anchorages, lush green coasts and radiant sunshine. Columbus named Costa Rica "La Huerta", or "the garden", and the name is just as fitting today as it was back then.

### A lecturer accompanies the trip

The fascinating flora and fauna in Costa Rica's national parks are bound to throw up questions. Therefore, a scientist with detailed knowledge of the region's various ecosystems will be on hand to answer them. He will give presentations and accompany the shore excursions.

## Fascinating flora and fauna, the metropolis of Panama City and the Panama Canal: San José (Puerto Limón) – San José (Puntarenas)

### Frank Gehry's Biomuseo in Panama City

In autumn 2014, Panama City gained another architectural gem, when the Biomuseo designed by Frank Gehry was opened; his first project in South America. The roof of this museum of natural science, which houses exhibitions demonstrating the biodiversity of Panama's ecosystem, features a spectacular design made up of colourful trapezoidal metal sheets.

### The construction of the century – the Panama Canal

Building work on Central America's famous artificial waterway began way back in 1881, but it would take more than 30 years for the canal to be finally completed. The Panama Canal is now used as a passageway between the Atlantic and Pacific oceans and has been since 1914. This technical marvel formed of locks and channels also includes two artificial lakes. One of them, Lake Gatún, is now flourishing once more with a diverse range of flora and fauna; the lake has been reclaimed by mother nature.

### The Coiba National Park

The Coiba National Park is one of the largest marine national parks in the world and was declared a UNESCO World Heritage Site in 2005. Made up of 38 smaller islands and the larger Coiba Island, the park is home to many indigenous plant and animal species. And as this is also the ideal habitat for marine wildlife, you are more than likely to encounter one of the park's 23 whale and dolphin species.

## Sailing with the warm trade winds, walking in tropical nature and hours spent relaxing with a French flair: Barbados – Barbados

### Tobago: an island paradise

The small fishing village of Charlotteville is situated in Tobago's idyllic Man-O-War Bay and can only be reached by land via a steep road which cuts through the rain-forest. With the ship anchored in the town's picturesque bay, you will have plenty of time to discover the island or to plunge into the emerald-green waters.

### Snorkellers' paradise in the Tobago Cays

A unique feature of the Tobago Cays is their unspoilt coral reef, known as the "Horseshoe Reef" due to its shape. It keeps the Atlantic swells at bay and is the perfect place for snorkelling. Once back on dry land, you will be treated to a beach barbecue with culinary specialities.

### Stunning islands: St Lucia and Dominica

Although St Lucia is not considered a saint by everyone, the island is certainly the true queen of this idyllic realm. Even from a distance, its twin volcanic peaks, the Pitons, proffer a regal greeting to the approaching SEA CLOUD II. And once we have docked, the island welcomes us with its lush tropical scenery. Dominica, unofficially dubbed "Nature Island", is proud of its unspoilt landscape. One of its national parks is even a UNESCO World Heritage Site.

### Regatta on the jet set island of St Barts

The fact that St Barts can only be reached by small aircraft often attracts international celebrities who come to enjoy relaxing days on the tranquil beach or head to the capital of Gustavia. A highlight for sports fans is the Bucket Regatta, a remarkable sailing event which is held in March every year and sees 30 stylish superyachts compete against one another.

## Island paradises, small harbour towns and a rendezvous with the **SEA CLOUD** – two weeks around the Lesser Antilles and the Grenadines.

### Tobago: an island paradise

The small fishing village of Charlotteville is situated in Tobago's idyllic Man-O-War Bay and can only be reached by land via a steep road which cuts through the rain-forest. With the ship anchored in the town's picturesque bay, you will have plenty of time to discover the island or to plunge into the emerald-green waters.

### A delight for all the senses: Grenada, the island of spice

There is a reason why nutmeg is immortalised on this country's national flag. Since colonial times nutmeg – along with cloves, cinnamon and ginger – has been one of the island's most important exports. If the aromatic fragrance of the tropics were to have a name, it would have to be "Grenada".

### Snorkellers' paradise in the Tobago Cays

A unique feature of the Tobago Cays is their unspoilt coral reef, known as the "Horseshoe Reef" due to its shape. It keeps the Atlantic swells at bay and is the perfect place for snorkelling. Once back on dry land, you will be treated to a beach barbecue with culinary specialities.

### A day at the beach on the popular sailors' island of Bequia

The **SEA CLOUD II** drops anchor in Admiralty Bay at Port Elizabeth on Bequia. It is the meeting place for round-the-world sailors and private luxury yachts. Our zodiacs bring you to the town or to one of the island's most beautiful beaches. You will have plenty of time for whatever you choose, be it swimming, snorkelling or taking a stroll.

### Stunning islands: St Lucia and Dominica

Although St Lucia is not considered a saint by everyone, the island is certainly the true queen of this idyllic realm. Even from a distance, its twin volcanic peaks, the Pitons, proffer a regal greeting to the approaching **SEA CLOUD II**. And once we have docked, the island welcomes us with its lush tropical scenery. Dominica, unofficially dubbed "Nature Island", is proud of its unspoilt landscape. One of its national parks is even a UNESCO World Heritage Site.

### French style on the Îles des Saintes

The Îles des Saintes give such a welcoming first impression, though the historical Fort Napoléon that towers over the main island is a reminder of less peaceful times. The little town on Terre-de-Haut is perfect for taking a stroll, and the savoir-vivre of life here unfolds against a backdrop of the glowing pastel colours of the Caribbean.

## Easter exotic style – a kaleidoscope of tropical forests, snorkelling paradises and sailors’ haunts: Barbados – Barbados

### Grenada – the island of spice

Although Grenada has been blessed with around 45 picture-perfect beaches, the country’s real treasure remains its lush, green island interior. Deep volcanic lakes, dense rainforests, waterfalls and small river courses form the primordial backdrop of the island’s sugar cane fields and spice plantations. It is the reason why the scent of cloves, cinnamon and nutmeg hangs in the air wherever you go on Grenada.

### The magnificent Pitons of St Lucia

Gros and Petit Piton, the two famous volcanic plugs that tower over St Lucia, could have come straight out of a tropical storybook. They are a UNESCO World Heritage Site and offer a spectacular panorama as the SEA CLOUD II sails closely alongside their slopes.

### Snorkellers’ paradise in the Tobago Cays

For many, life under water is a fascinating world – one that becomes even more magical the closer you get. The Tobago Cays’ Horseshoe Reef is such a place. This horseshoe-shaped coral reef encloses four small islands that glow in rich shades of green. The sea, in contrast, embraces turquoise, emerald and every shade of blue.

 **Sailing together**

Enjoy the sunny side of the Lesser Antilles and sail alongside the legendary **SEA CLOUD: Barbados – Barbados**

**A windjammer rendezvous in idyllic waters**

When the SEA CLOUD II meets the SEA CLOUD against an exquisite Caribbean backdrop and they sail together, there is a real sense of joy at the reunion of these two ships. One moment, the windjammers glide majestically side by side; then again they compete in a playful race under full sail. The elegant sisters cruise for a whole afternoon between Guadeloupe and the Îles des Saintes, which makes for some stunning photo opportunities.

**French style on the Îles des Saintes**

The Îles des Saintes give such a welcoming first impression, though the historical Fort Napoléon that towers over the main island is a reminder of less peaceful times. This small town's promenade is perfect for taking a stroll, and the savoir-vivre of life here unfolds against a backdrop of the glowing pastel colours of the Caribbean.

**The jet set island of St Barts**

St Barthélemy has had several masters: the Spanish, the Swedes, the French and the Knights of Malta. However, it is now firmly in the hands of the jet set, who come here for short breaks to get away from it all. All of the yachts in the harbour are worth looking at, as are the bars and restaurants.

## 2016 PREVIEW: THE ANNIVERSARY YEAR

The return of our two windjammers from their warm winter haven next year will be a rather special cause for celebration as there are two milestone anniversaries coming up in 2016. Whilst our grande dame, the SEA CLOUD, has been proudly sailing the seven seas for 85 years now, her younger sister, the SEA CLOUD II, can also look back on a “sailing career” already spanning 15 years. We will celebrate this anniversary year in style with some very special cruises.

The SEA CLOUD will be embarking on her birthday trip from Lisbon to Barcelona and the SEA CLOUD II will also be starting her European season in the Portuguese capital, giving both windjammers the chance to sail together for several days. And that’s not all: As a fitting tribute to this anniversary year, 2016 will frequently see our yachts meeting one another at sea. Apart from that, the SEA CLOUD will spend most of her time in the Adriatic and eastern Mediterranean.

A colourful programme across Northern Europe awaits the SEA CLOUD II. She will be visiting the Baltic Sea and Norway – sailing right up north to Bergen – as well as the Shetland Islands, Orkney, Scotland and Ireland. The Atlantic coast, Corsica, Sardinia, Sicily and the Amalfi coast also await her before both vessels once again head off on their Transatlantic cruises, leaving the cold winter behind them.
