

Goat Hill – Jamaica

Goat Hill is the epitome of perfection, it has recently been lavishly refurbished, and so provides luxury accommodation with all the charms and beauty of rustic Jamaica. There are 3 bedrooms that can accommodate up to 6 persons, a private pool, a Jacuzzi and a hot tub, plus the villa is rented with membership to the Round Hill Beach Club. Goat Hill is positioned such that it benefits from the spectacular views of sunrise and Montego Bay to the east, or the sunset and Caribbean Sea from the west along with the gentle breezes from the passing tradewinds.

The accommodation is an arrangement of individual pavilions, wrapped by cut stone terraces and balconies and each pavilion has three sides of glass doors that open up to take full advantage of the views. Each of the 3 bedrooms is reached by a stone stairway, providing great privacy. The interiors are tasteful and include rich mahogany, highly polished brass, white canvas upholstery and some original art and unique artifacts.

The Chef Patricia is on hand to serve up a delicious breakfast on the west veranda under the Ackee tree, with views across the water to Round Hill, or poolside lunches and amazing home-cooked dinners by candlelight with the night lights of Montego Bay sparkling in the distance.

As the villa benefits from the breezes both day and night, the owners decided that air conditioning is not needed, only ceiling fans for those that need them. Each of the bedroom measures 15' x 20' with stunning ocean views, flat screen TV and DVD players, plus tropical style bathrooms with a large open sunken shower and louvres that open to the lit gardens and the fragrances from the ginger lilies.
