

## Morne Trulah – St Lucia

Morne Trulah is a four bedroom villa on the site of an old French harbour fort, high above the historic Rodney Bay. The villa is situated at Bois D'Orange with an all encompassing sea view, against the backdrop of Pigeon Island, the Causeway from island to mainland, boat traffic on Rodney Bay and the French island of Martinique.

This villa has 4 spacious, air-conditioned bedrooms, each with their own outdoor patio area overlooking the tropical waters of St. Lucia. All four bedrooms are equal in size, three of which have twin beds and the last featuring a king-size four poster bed with a canopy. All have en-suite bathrooms as well as a sitting area where one can curl up and enjoy a good book in comfort or simply relax and enjoy the cool tropical breeze usually blowing through Morne Trulah.

The four bedrooms are at the corners of a roomy, air-conditioned sitting/dining area with cable TV, DVD movies and modern sound system. One can breakfast, lunch or dine on a private patio while gazing out to sea: on a clear night you can frequently see the lights of Martinique. Beyond the house is a lighted swimming pool and comfortable sun deck set amid lawns, tropical garden plants and trees with orchids growing in their branches.

Swimming from the sandy, Bois D'Orange beach, is available after a short walk.

There is a well equipped kitchen with laundry facilities attached for your convenience. An excellent cook and her assistant work at the villa 6 days weekly (the domestic staff work 6 days a week, 8am - 4pm, Monday to Saturday).

The villa is equipped with a burglar alarm system.

***Jeep rental is recommended***
